CIT2-LED-DLC SERIES

LED Vapor-tite Unit

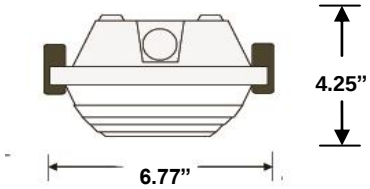
Application: *This fully weatherproof LED Low Bay / Parking Garage unit is designed for use in areas where environment conditions are a concern. Built to withstand direct contact with rain and other corrosive materials this unit is air-tight and water-tight. This unit is ideal in areas such as warehouses, car washes, store fronts, parking garages, kitchens, and chemical plants and capable of being hosed down for easy cleaning.*

Constriction: *Exterior SLP Lighting housing is designed for single piece injection molded fiberglass/plastic combination blend. Neoprene gasket and stainless steel pressure latches ensure waterproof seal. Interior gear tray is heavy gauge die formed steel which hinges to allow electrical raceway access while remaining attached to luminaire housing during installation and maintenance.*

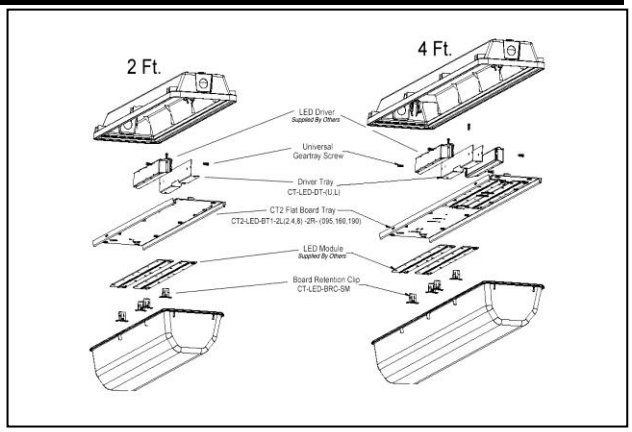
Electrical: *All meet requirements for UL Luminaire Standard # 1598 wet location and 8750 LED Luminaire as well as comply with National Energy Standards. NSF / ANSI Standard 2 - Splash Zone.*

LED Board / Driver: *Units are supplied with UL Recognized Philips Fortimo Series LED boards and Philips Advance Xitanium Series LED Drivers and set to normal "drive current" as published by Philips Lighting*

Mounting: *Vapor-tite Unit available with an stainless steel external hanging bracket. VT Series is watertight and must be drilled and sealed for each surface mounting or chain hanging application.*



Length
2 Ft. = 28"
4 Ft. = 52"



Qty	Total Lumens	Max Wattage
1	2200	16 W
2	4400	32 W
4	8800	64 W

Fixture Efficacy (Lumens per watt) is based on LED board efficacy and drive current specification published by the manufacturer and updated as LED Technology advances.

Maximium Weight = *15 lbs. / 48" 32 lbs. / 96"*
