

# ALC Series

## Aluminum Channel

**Application:** Aluminum covered and gasketed unit is designed for use in most outdoor areas. ALC Series is ideal for such areas as shopping centers, walkways, under eaves, dock areas, or any place that is not directly in contact with the rain or chemicals.

**Construction:** Housing and end plates are designed from heavy gauge die formed aluminum that resists rust and corrosion. Unit is finished in baked white enamel for maximum reflectivity and durability. Neoprene and rubber gaskets ensure moisture seal and protect components from corrosion. Lens is extruded 100% clear virgin acrylic that resists yellowing.

**Electrical:** All units are furnished with UL Listed Class P thermally protected ballast. Other voltages are available upon request. Fixtures meet requirements for UL Luminaire Standard # 1598. All units comply with National Energy Standards.

**Mounting:** Knockouts available for both pendant and surface mounting. This unit is designed to be mounted individually or in a continuous run.
